

GRADE 8 DATASHEETS OF KEP EP(D)M SERIES

**KEP – 281F**

**Product Information**

- KEP-281F is a EPDM grade with a high Mooney viscosity, long chain branching, Having high molecular weight, high vulcanization speed, high filler loading & excellent extrusion property, good collapse resistance, it is suited for applications weather strip solid, window seals, various types of automobile parts, heat resistant hose.

Properties	Units	Typical Values	Test Method
Molecular Weight Distribution (MWD)		Broad	
Specific Gravity		0.86	
Cure Speed		Fast	
<b>Typical Properties</b>			
Volatile Content	Wt-%	0.4	ASTM D 1416
Ash Content	Wt-%	0.0.	ASTM D 1416
Ethylene Content	Wt-%	67.0	ASTM D 3900-95
ENB Content	Wt-%	5.7	ASTM D 6047
Raw Rubber Mooney Viscosity (ML 1+4 125°C milled)	MU	83.0	ASTM D1646-95
Product Form	Friable Bale	25 kg	

\* Remarks: the above values in the table are typical data. Not specifications.
