

GRADE 8 DATASHEETS OF KEP EP (D) M SERIES

KEP – 350 **Product Information**

- KEP-350 is a high Mooney viscosity EPDM grade with excellent processability and very fast cure rate, and it is suitable for blending with Diene type rubbers.
- KEP 350 is widely used in cover strips, white sidewall, body sendings and industrial sponges.

Properties	Units	Typical Values	Test Method
Molecular Weight Distribution (MWD)		Medium	
Specific Gravity		0.86	
Cure Speed		Very Fast	
Typical Properties			
Volatile Content	Wt-%	0.45	ASTM D 1416
Ash Content	Wt-%	0.03	ASTM D 1416
Ethylene Content	Wt-%	57.0	ASTM D 3900-95
ENB Content	Wt-%	7.9	ASTM D 6047
Raw Rubber Mooney Viscosity (ML 1+4 125°C milled)	MU	56.0	ASTM D1646-95
Product Form	Bale	25 kg	

* Remarks: the above values in the table are typical data. Not specifications.
